Our guest was Angela Glatston who joined the RPN Board of Directors in 2014 and is now chair. Angela is a trained zoologist with a strong interest in animal ...

24. The Early Days Maternal Behaviour and Infant Development

The red panda is an altricial species as is the giant **panda**. Both are similar in their degree of helplessness. The giant **panda** is referred to, as the most altricial of all eutherian mammals; more than 99% of body growth and 99.9% of brain growth are post-natal in *Ailuropoda*. In the **red panda**, 98% of growth is postnatal; the maturation of the cub ...

25. Placentation of the Red Panda

The umbilical cord of this **red panda** afterbirth measured 3.5 cm in length and was only slightly spiralled. Watson remarked how short the cord is in the raccoon and this thus equally applies to the **red panda** placenta. The umbilical cord contained two arteries, a vein, and a large allantoic duct (Figure 9.4, Figure 9.5, Figure 9.6). Similar to the cord of raccoon placentas, it contained no ...

26. Red Panda fans please stay at home

Furthermore, now would be a good time to read **Red Panda: Biology and Conservation of the First Panda** by Angela R. Glatston. Also available as **eBook**. Origami. Parc Animalier d'Auvergne in France offers a folding tutorial for a **Panda-Origami**. Although the instructions are in French, they should be translated quickly using DeepL or other services.
